30 November 2009

Dear Customer

Hawkins Watts Limited is pleased to announce that this year we will, as we have done for many years in the past, again be making donations to selected charitable organisations in lieu of Christmas presents.

After much deliberation, our team has again selected the Helicopter Trusts throughout New Zealand and the Cancer Society as the main recipients; we believe that both these organisations provide an essential community service that benefits everyone.

The staff at Hawkins Watts are pleased to advise that generous donations have been made to the following:

- **Auckland Rescue Helicopter Trust**
- **Northland Rescue Helicopter Trust**
- **The Square Trust Rescue Helicopter – Manawatu**
- **Trust Power Tech Rescue Helicopter – Whakatane**
- **Bay Trust Rescue Helicopter - Rotorua/Tauranga**
- **Lion Foundation Rescue Helicopter – Taupo**
- **Westpac Waikato Air Ambulance – Waikato**
- **Eastlands Helicopter Rescue Trust – Gisborne**
- **The Life Flight Trust – Wairarapa/Wellington**
- **Nelson Marlborough Rescue Helicopter Trust – Nelson**
- **Canterbury Westcoast Air Rescue Trust – Canterbury/Westcoast**
- **Otago Rescue Helicopter Trust – Otago/Southland**
- **Taranaki Rescue Helicopter Trust – Taranaki/Wanganui**
- **Hawkes Bay Rescue Helicopter Trust – Hawkes Bay**
- **Cancer Society – New Zealand**

If you visit our Auckland office you will see many photos of Rescue Helicopters in action. These have been sent to us in appreciation of our financial support.

We trust that all of our customers appreciate these donations to the Helicopter Trusts and Cancer research New Zealand-wide and we sincerely hope that the services of these organisations are not required by any of our customers' families or friends.

All of us here at Hawkins Watts would like to take this opportunity to thank you for your business during the year. We look forward to continuing our association and being of further service to you in 2010.

Seasons Greetings to all,

The Management & Staff  
**Hawkins Watts Limited**
