

Press Release

15 January 2008

Hawkins Watts Ltd launches Wine Ingredients range.

Hawkins Watts Ltd today launched its range of ingredients for the wine industry. The range includes ingredients from around the world, including the ATP range of natural Tartaric Acid and natural Cream of Tartar.

“Our ingredient range covers every step of the wine making process “ said Stuart Jones, Business Development Manager at Hawkins Watts Ltd. “From preparation and crushing right through to clarification and bottling we are able to assist the wine maker with quality ingredients” he said.

Some of the products include;

- ❖ ADM Citric Acid
- ❖ ATP Natural Tartaric Acid & Cream of Tartar
- ❖ Kirsch Pharma Minerals
- ❖ Phytone Grape Skin Extract
- ❖ CNI Gum Arabic
